

Tutorial Draft

1. Download files. We are using the MarkShark 60 question standard template.
 - a. Look at the raw scans (mock_scans.pdf)
 - b. Look at the answer key (mock_key.txt)
 - c. Look at the student roster (mock_roster.csv)
2. Navigate to 'Grader'
3. Upload files to the correct slots. Choose the correct template.
4. Click align and score.
5. Go to the review answers page. Understand how the numbers on top of each bubble were generated.
6. Correct and reannotate.
7. Return to generate the final report.
8. Read and understand the final report.
9. Upload to your LMS.
